Founder's Message:

On the occasion of International Children's day - 2024

This International Children's Day, we embrace the theme "Listen to the Future," a powerful reminder that the future speaks through the voices of our children—their dreams, concerns, and ideas. At IECED, we are dedicated to nurturing these voices by equipping parents and teachers with the tools to truly listen and respond to our young generation's needs.

Every word a child speaks holds the potential to shape a brighter tomorrow. This Children's Day, let us pledge to create spaces where every child feels heard, valued, and loved. By listening not just with our ears but with our hearts, we can protect their rights, prioritize their well-being, and help their dreams soar. Together, let's shape a future filled with hope and possibility.

Warm regards,

Naheed Wasi
